WORKERS AND CREATIVITY:

How to improve working conditions by participative methods?
26-27 June 2017 - Brussels

The conference focuses on the issues of creativity related to the improvement of the working conditions by workers and worker representatives' participation.

The conference aims:

- to promote ergonomics and ergonomists at European and national level
- to develop relationships between European and national ergonomics levels
- to boost relationships between EU bodies and FEES
- to improve trade union capacity and knowledge on ergonomics

Languages: English and French simultaneous interpretation will be provided
